

Ingrid's Home

Dear Cat Tails, It's been 8 months since we were adopted and we wanted to let you know how us southern kitties are faring up north. We get lots of love and attention and have a new kitty mom named Ingrid. She had to get used to us, but now we all get along and she even taught us how to chirp! Dory and I are best buddies and love to play and race around the house. Sometimes we sound just like thunder! At night we like to sleep with our mom, dad, and Ingrid. We think a new bigger bed is in order so we can all spread out and have more room! Attached are some pictures so you can see how we've grown. We'll send more pictures later on.
