

## Reilly's Home

*We adopted Smitty (page 188, A24 on the website), now known as "Reilly" back in May and completely adore him. He adjusted so quickly to his new home which included his big sister, Abby. He adored her from the start. It wasn't love at first sight for Abby, but she has certainly grown to love him. He is quite taken with her big fluffy tail and is often quite tempted to pounce on it....he just can't help himself. I just wanted to send some pictures to you of Reilly (Smitty) in his new home. I have included some from the Spring, when he first came to us and some more recent Summer photos.*

*Thank you for all that you do to find homes for these precious animals.  
Kind Regards, Angie Pennell [8/12/2010]*
